

Claim Amendments

1. (Currently Amended) A salt sorbet facial and body scrub, comprising:
- a. 40.00 percent to 50.00 percent ~~dead sea salt~~ Dead Sea Salt;
 - b. 28 percent to 34 percent Carthamus Tinctorius (Safflower) Seed Oil;
 - c. 11.50 percent to 14.05 percent Dimethicone;
 - 5 d. 7.40 percent to 9.05 percent Silica;
 - e. 1.00 percent to 3.00 percent fragrance;
 - f. 0.14 percent to 0.16 percent Persea Gratissima (Avocado) Oil;
 - g. 0.14 percent to 0.16 percent Simmondsia Chinensis (Jojoba) Oil;
 - h. 0.05 percent to 0.60 percent Retinyl Palmitate (Vitamin A Palmitate);
 - 10 I. 0.05 percent to 0.6 percent Pantothenic Acid (Vitamin B5);
 - j. 0.05 percent to 0.6 percent Ascorbic Acid (Vitamin C);
 - k. 0.05 percent to 0.6 percent Cholecalciferol (Vitamin D3);
 - l. 0.05 percent to 0.6 percent Tocopheryl Acetate (Vitamin E Acetate); ~~and~~
 - m. 0.05 percent to 0.6 percent Phytonadione (Vitamin K); and
 - 15 n. the above combination creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.
2. (Original) The salt sorbet facial and body scrub in accordance with Claim 1, wherein said fragrance is selected from the group comprising apple, blueberry, lemon, raspberry and fresh peach.
3. (Currently Amended) A salt sorbet facial and body scrub, comprising:
- a. 40.00 percent to 50.00 percent ~~dead sea salt~~ Dead Sea Salt;
 - b. 28 percent to 34 percent Carthamus Tinctorius (Safflower) Seed Oil;
 - c. 11.50 percent to 14.05 percent Dimethicone;
 - 5 d. 7.40 percent to 9.05 percent Silica;

- e. 1.00 percent to 3.00 percent fragrance;
 - f. 0.01 percent to 0.16 percent Persea Gratissima (Avocado) Oil;
 - g. 0.01 percent to 0.60 percent Simmondsia Chinensis (Jojoba) Oil;
 - h. 0.01 percent to 0.60 percent Retinyl Palmitate (Vitamin A Palmitate);
 - 10 I. 0.01 percent to 0.6 percent Pantothenic Acid (Vitamin B5);
 - j. 0.01 percent to 0.6 percent Ascorbic Acid (Vitamin C);
 - k. 0.01 percent to 0.6 percent Cholecalciferol (Vitamin D3);
 - l. 0.01 percent to 0.6 percent Tocopheryl Acetate (Vitamin E Acetate); and
 - m. 0.01 percent to 0.6 percent Phytonadione (Vitamin K); and
 - 15 n. the above combination creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.
4. (Original) The salt sorbet facial and body scrub in accordance with Claim 3, wherein said fragrance is selected from the group comprising apple, blueberry, lemon, raspberry and fresh peach.
 5. (Currently Amended) A salt sorbet facial and body scrub, comprising:
 - a. 31.34 percent Carthamus Tinctorius (Safflower) Seed Oil;
 - b. 0.15 percent Persea Gratissima (Avocado) Oil;
 - c. 0.15 percent Simmondsia Chinensis (Jojoba) Oil;
 - 5 d. 0.05 percent Retinyl Palmitate (Vitamin A Palmitate);
 - e. 0.05 percent Pantothenic Acid (Vitamin B5);
 - f. 0.05 percent Ascorbic Acid (Vitamin C);
 - g. 0.05 percent Cholecalciferol (Vitamin D3);
 - h. 0.05 percent Tocopheryl Acetate (Vitamin E Acetate);
 - 10 I. 0.05 percent Phytonadione (Vitamin K);
 - j. 8.25 percent Silica;

- 15 k. 12.75 percent Dimethicone;
- l. 45 percent Dead Sea Salt; and
- m. 2 percent Fragrance; and
- 15 n. the above combination creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.
6. (Original) The salt sorbet facial and body scrub in accordance with Claim 5, wherein said fragrance is selected from the group comprising apple, blueberry, lemon, raspberry and fresh peach.
7. (Currently Amended) A salt sorbet facial and body scrub, comprising:
- a. 30.44 percent Carthamus Tinctorius (Safflower) Seed Oil;
- b. 0.10 percent Persea Gratissima (Avocado) Oil;
- c. 0.10 percent Simmondsia Chinensis (Jojoba) Oil;
- 5 d. 0.01 percent Retinyl Palmitate (Vitamin A Palmitate);
- e. 0.01 percent Pantothenic Acid (Vitamin B5);
- f. 0.01 percent Ascorbic Acid (Vitamin C);
- g. 0.01 percent Cholecalciferol (Vitamin D3);
- h. 0.01 percent Tocopheryl Acetate (Vitamin E Acetate); and
- 10 I. 0.01 percent Phytonadione (Vitamin K);
- j. 7.50 percent Silica;
- k. 10.00 percent Dimethicone;
- l. 50 percent Dead Sea Salt; and
- m. 2 percent Fragrance; and
- 15 n. the above combination creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.

8. (Original) The salt sorbet facial and body scrub in accordance with Claim 7, wherein said fragrance is selected from the group comprising apple, blueberry, lemon, raspberry and fresh peach.

9. (Currently Amended) A method of producing a salt sorbet facial and body scrub, comprising:

a. combining Carthamus Tinctorius (Safflower) Seed Oil, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Oil, Retinyl Palmitate (Vitamin A Palmitate), Pantothenic Acid (Vitamin B5), Ascorbic Acid (Vitamin C), Cholecalciferol (Vitamin D3), Tocopheryl Acetate (Vitamin E Acetate) and Phytonadione (Vitamin K) by adding one oil at a time and then one vitamin at a time with constant mixing;

b. ~~slowly~~ adding Silica with constant mixing;

c. adding Dimethicone and mixing until blended;

d. adding Dead Sea Salt while mixing and then adding Fragrance while ~~missing~~ mixing; and

e. combining the oils, vitamins, Silica, Dimethicone, Dead Sea Salt and Fragrance until the final percentage of all ingredients is in the following ranges: 40.00 percent to 50.00 percent Dead Sea Salt, 28 percent to 34 percent Carthamus Tinctorius (Safflower) Seed Oil, 11.50 percent to 14.05 percent Dimethicone, 7.40 percent to 9.05 percent Silica, 1.00 percent to 3.00 percent fragrance, 0.14 percent to 0.16 percent Persea Gratissima (Avocado) Oil, 0.14 percent to 0.10 percent Simmondsia Chinensis (Jojoba) Oil, 0.05 percent to 0.60 percent Retinyl Palmitate (Vitamin A Palmitate), 0.05 percent to 0.6 percent Pantothenic Acid (Vitamin B5), 0.05 percent to 0.6 percent Ascorbic Acid (Vitamin C), 0.05 percent to 0.6 percent Cholecalciferol (Vitamin D3), 0.05 percent to 0.6 percent Tocopheryl Acetate (Vitamin E Acetate), and 0.05 percent to 0.6 percent Phytonadione (Vitamin K): and

25 f. the method creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.

10. (Currently Amended) A method of producing a salt sorbet facial and body scrub, comprising:

- 5 a. combining Carthamus Tinctorius (Safflower) Seed Oil, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Oil, Retinyl Palmitate (Vitamin A Palmitate), Pantothenic Acid (Vitamin B5), Ascorbic Acid (Vitamin C), Cholecalciferol (Vitamin D3), Tocopheryl Acetate (Vitamin E Acetate) and Phytonadione (Vitamin K) by adding one oil at a time and then one vitamin at a time with constant mixing;
- 10 b. ~~slowly~~ adding Silica with constant mixing;
- c. adding Dimethicone and mixing until blended;
- d. adding Dead Sea Salt while mixing and then adding Fragrance while ~~missing~~ mixing; and
- 15 e. combining the oils, vitamins, Silica, Dimethicone, Dead Sea Salt and Fragrance until the final percentage of all ingredients is in the following ranges: 40.00 percent to 50.00 percent Dead Sea Salt, 28 percent to 34 percent Carthamus Tinctorius (Safflower) Seed Oil, 11.50 percent to 14.05 percent Dimethicone, 7.40 percent to 9.05 percent Silica, 1.00 percent to 3.00 percent fragrance, 0.14 percent to 0.16 percent Persea Gratissima (Avocado) Oil, 0.01 percent to 0.16 percent Simmondsia Chinensis (Jojoba) Oil, 0.01 percent to 0.60 percent Retinyl Palmitate (Vitamin A Palmitate), 0.01 percent to 0.6 percent Pantothenic Acid (Vitamin B5), 0.01 percent to 0.6 percent Ascorbic Acid (Vitamin C), 0.01 percent to 0.6 percent Cholecalciferol (Vitamin D3), 0.01 percent to 0.6 percent Tocopheryl Acetate (Vitamin E Acetate), and 0.01 percent to 0.6 percent Phytonadione (Vitamin K): and
- 20

- 25 f. the method creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.
11. (Currently Amended) A method of producing a salt sorbet facial and body scrub, comprising:
- 5 a. combining Carthamus Tinctorius (Safflower) Seed Oil, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Oil, Retinyl Palmitate (Vitamin A Palmitate), Pantothenic Acid (Vitamin B5), Ascorbic Acid (Vitamin C), Cholecalciferol (Vitamin D3), Tocopheryl Acetate (Vitamin E Acetate) and Phytonadione (Vitamin K) by adding one oil at a time and then one vitamin at a time with constant mixing;
- 10 b. ~~slowly~~ adding Silica with constant mixing;
- c. adding Dimethicone and mixing until blended;
- d. adding Dead Sea Salt while mixing and then adding Fragrance while ~~missing~~ mixing; and
- 15 e. combining the oils, vitamins, Silica, Dimethicone, Dead Sea Salt and Fragrance until the final percentage of all ingredients are in the following percentages: 31.34 percent Carthamus Tinctorius (Safflower) Seed Oil, 0.15 percent Persea Gratissima (Avocado) Oil, 0.15 percent Simmondsia Chinensis (Jojoba) Oil, 0.05 percent Retinyl Palmitate (Vitamin A Palmitate), 0.05 percent Pantothenic Acid (Vitamin B5), 0.05 percent Ascorbic Acid (Vitamin C), 0.05 percent Cholecalciferol (Vitamin D3), 0.05 percent Tocopheryl Acetate (Vitamin E Acetate), 0.05 percent Phytonadione (Vitamin K), 8.25 percent Silica, 12.75 percent Dimethicone, 45 percent Dead Sea Salt, and 2 percent Fragrance: ~~and~~
- 20 f. the method creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.

12. (Currently Amended) A method of producing a salt sorbet facial and body scrub, comprising:

- a. combining Carthamus Tinctorius (Safflower) Seed Oil, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Oil, Retinyl Palmitate (Vitamin A Palmitate), Pantothenic Acid (Vitamin B5), Ascorbic Acid (Vitamin C), Cholecalciferol (Vitamin D3), Tocopheryl Acetate (Vitamin E Acetate) and Phytonadione (Vitamin K) by adding one oil at a time and then one vitamin at a time with constant mixing;
- b. slowly adding Silica with constant mixing;
- c. adding Dimethicone and mixing until blended;
- d. adding Dead Sea Salt while mixing and then adding Fragrance while ~~missing~~ mixing; and
- e. combining the oils, vitamins, Silica, Dimethicone, Dead Sea Salt and Fragrance until the final percentage of all ingredients are in the following percentages: 30.44 percent Carthamus Tinctorius (Safflower) Seed Oil, 0.10 percent Persea Gratissima (Avocado) Oil, 0.10 percent Simmondsia Chinensis (Jojoba) Oil, 0.01 percent Retinyl Palmitate (Vitamin A Palmitate), 0.01 percent Pantothenic Acid (Vitamin B5); 0.01 percent Ascorbic Acid (Vitamin C), 0.01 percent Cholecalciferol (Vitamin D3); 0.01 percent Tocopheryl Acetate (Vitamin E Acetate), 0.01 percent Phytonadione (Vitamin K), 7.50 percent Silica, 10.00 percent Dimethicone, 50 percent Dead Sea Salt, and 2 percent Fragrance: ~~and~~
- f. the method creating a salt sorbet blown up foam which provides a deep cleaning action to cleanse skin pores and exfoliate skin in a manner which will not damage the skin.
